

Lessonplan for 6 to 7 year olds

Lesson 1

Introduction

How do plants grow?

- Brainstorming (Sun, Water ...)
- Youtube (Confirmation, What did we miss before?)

Core

Instruction on how to plant cress

- Examples without water/Sun/Soil
Introduction to "Cress – Journal"
- Colour first page in
- Make different hypothesis about cress without water/sun/soil.
- Plant the cress

In the following lessons the students have 20 min each day to update their journal by drawing and describing the progress

Conclusion

Discuss the hypothesis; which environment do plants need to have to grow.

Lesson 2

Introduction

Colour in the world map, which countries do you think are hungry.

Talk about the different environments of those countries and why there would be hunger.

Connect it to the watercress

Introduce the charity by showing the video.

Talk about what we can do to help, collect the ideas on the white board

Core

Let them make a box for collecting seeds

Make a promotion team

Think of ways to get other people involved (poster?)

Make an information team

How are we going to do it? What happens to the seeds we collect?

Don't forget:

- List of seeds they can collect
- Make a letter for the parents

Conclusion

See what the information and promotion team came up with.

Think about which goal to set (how many seeds)
